

# Electronics Manufacturing Services Worldwide

We create the hardware  
of the digital world

# How much will 60 years of EMS experience improve your business?

---

**For more than half a century, GPV has been committed to the field of EMS - manufacturing high-quality products and helping our customers grow and reach their business goals.**

## **About GPV**

GPV is among the Top 10-EMS providers headquartered in Europe with 12 production sites across Asia, Europe and the Americas.

We specialise in high-mix/low to medium volume EMS and deliver advanced electronics and mechatronics solutions to customers worldwide - most often as customized box-build products.

Besides dedicated competencies within electronics and mechatronics production, we offer strong logistics capabilities, ensuring on-time delivery across the globe.

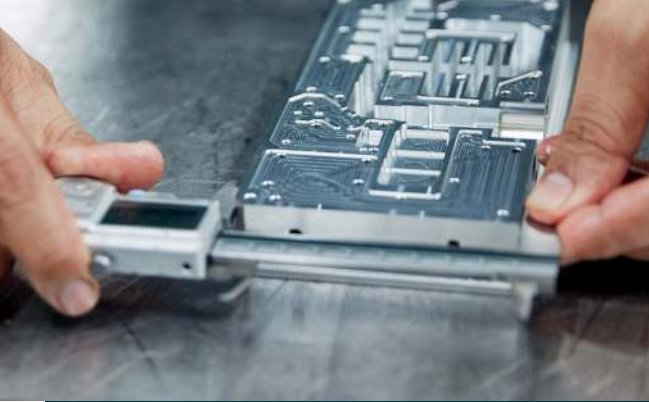

GPV employs a staff of approximately 3,700 employees around the world, and we service customers in the fields of Cleantech, Instruments & Industry, MedTech and Transportation.

---

**We enable our customers to 'Accomplish More' through decades of industry know-how and our customer-centric business approach. Service excellence is at the heart of our business to ensure value creation in every aspect of our customer relations.**

## **In addition to our core services, we offer:**

- > Global best-cost country setup and economies of scale.
- > Full life-cycle management under TCO perspectives.
- > Expertise in small to medium volume orders.
- > Uncompromising quality and on-time delivery.

Products**

# The hardware of the digital world

**From ambition to real products**

## **A unique customer perspective**

GPV is committed to ensuring that our customers accomplish more. We do this by building strong partnerships based on responsible and honest cooperation.

We acquire comprehensive insights into our customers' needs and industry, and we manage advanced product processing, relying on our strong technological know-how.

## **Stable. Specialized. Global.**

In all that we do, we focus on creating value for our customers and our approach embodies the spirit of the entire organization. As such, we always strive for a timely delivery of faultless, secure, and functional products and services that fulfill the expectations and requirements of our customers.
